TERRAS.COM.AU PH: 49 294 926 FAX: 49 263 069

L3

Temporary coastal protection works comprised of Kyowa, or similar, 4 tonne rock bag armour units

Photo taken 17 September 2024 and representative of the eroded beach state. Sand volumes and beach conditions are very dynamic at this section of MacMasters Beach

The illustration shows the temporary coastal protection works with the maximum crest height, however this may be reduced.

Illustration of temporary coastal protection works based on draft design from coastal engineer for consultation purposes.
